3 FABRICMATE SOLUTIONS

1 'SITE-FABRICATED' WALL FINISHING SYSTEM

Conforms to any architectural feature • Significantly reduces maintenance costs

ENHANCE ACOUSTICS & IMPROVE YOUR LEARNING ENVIRONMENTS

Lifetime Track & ReCore® Warranty
FREE Training Available

ADORN AND PROTECT THE WALLS IN HIGH-TRAFFIC AREAS

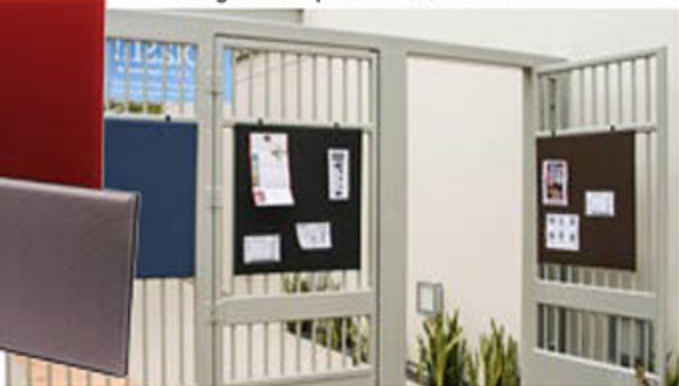

2 'READY-TO-HANG' PRE-MADE PANELS

Easy To Put-Up • Arrives Ready-To-Hang • Built-To-Last • Useful Anywhere

A FEW PANELS CAN IMPROVE ACOUSTICS

Magnetic Options Available

KEEP EVERYONE INFORMED

3 'READY-TO-INSTALL' MODULAR PANEL KITS

Each kit includes everything you need to create a large affordable bulletin board panel

INSTALLATION IS QUICK AND EASY: THIS 4' X 12' PANEL WAS PUT UP IN HALF-AN-HOUR

THERE IS MORE THAN ONE WAY TO FINISH A WALL

Impress Prospective Students & Parents

Fabricmate Wall Finishing Systems create that high-tech feel that students love. They transform plain walls into massive **tackable** bulletin boards for hanging posters, art & reminders without risk of damaging the wall behind. They **improve acoustics** by absorbing reverberated sound and reducing noise levels. And their built-to-last **durability** provides a high-impact barrier that - unlike paint - protects your wall without need for constant maintenance.

Improve Your Learning Environments

Bare painted walls are an acoustics nightmare. They cause sound to reverberate, making it difficult to hear properly in a crowded classroom. Our Wall Finishing Systems are proven to significantly reduce these common acoustical problems and enhance speech intelligibility; which is one of the primary reasons why so many school districts are using Fabricmate Wall Finishing Systems.
