

FS210

**BEVELED SIDE-LOAD**  
FABRIC MOUNTING FRAME

**FABRICMATE**  
WALL FINISHING SOLUTIONS

Acoustic Fabric Panels Hanging in Restaurant

FS210 is used as a perimeter piece for 1/2" installations where a Beveled edge is desired. The Frame edge is virtually hidden but can still be slightly seen. It can be customized with colors, patterns, and more to create your ultimate wall finishing solution. Combined with our ReCore®

Backing and Fabric, this Frame can be used to create anything from full-wall photographic murals to smaller acoustic or bulletin-board panels as well as Wainscoting and other types of Wall Protection. Use our Flex-Frame for creating curved designs or installing on rounded surfaces.
