

WALL FINISHING **REDEFINED**

ACOUSTIC | TACKABLE | DURABLE | THERMAL | NON-TOXIC | RECYCLABLE | VOC FREE | INDOOR | OUTDOOR

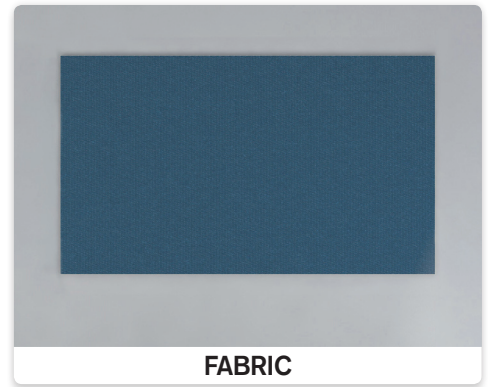

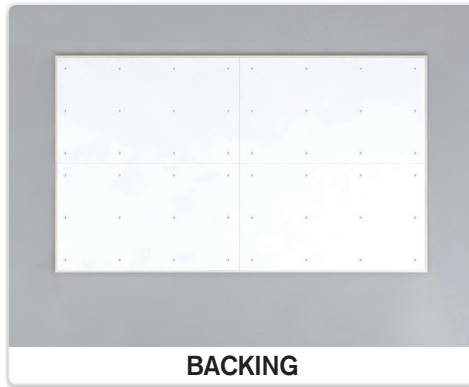

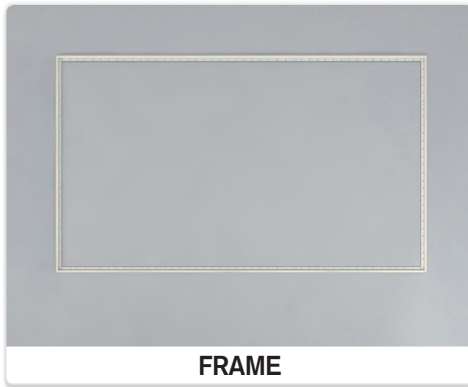

STANDALONE PANELS | CURVED OR GEOMETRIC MULTI-PANEL DESIGNS | FULL-WALL SYSTEMS | CEILINGS & HVAC

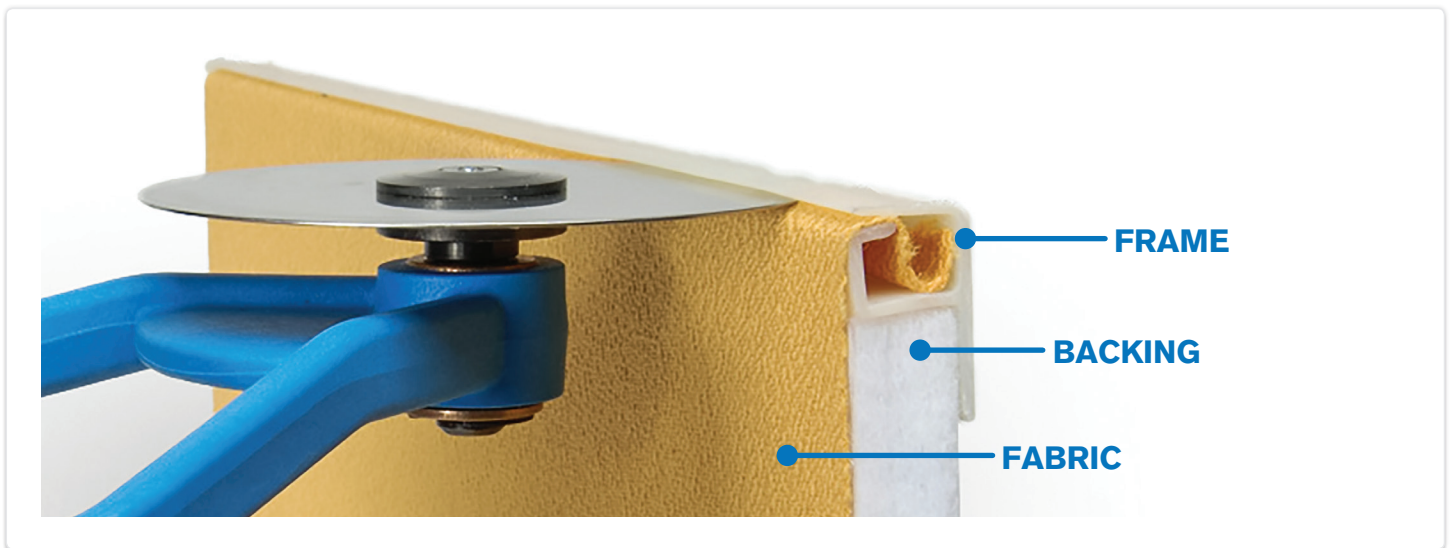

Our system is designed to enhance your walls both in style and functionality. Easily change out the fabric if it gets soiled, for special occasions, or to update room aesthetics. Our system is virtually maintenance free, anti-microbial, fire-resistant, and mitigates visible damage providing long lasting wall protection. Creating multi-functional soundproof panels and acoustic walls has never been so easy or customizable!

THE FABRICMATE **SYSTEM**

3 SIMPLE **COMPONENTS**

Our System consists of 3 easy-to-use components: Frame, Backing, and Fabric. The Frame outlines the shape of the panel or full-wall system. The Backing fills in the Frame providing acoustics, impact-resistance, and more. The Fabric is inserted into the jaws of the Frame and stretches across the panel allowing the surface to spring back when struck.

REVOLUTIONARY **RECORE®**

2"+

- Made of Recycled water bottles
- 100% Recyclable at end-of-life
- Non-Toxic & VOC Free
- Antimicrobial & Antifungal
- Thermally Insulative
- Acoustic & Tackable (most)

FOCUS ON **FUNCTIONALITY**

ACOUSTIC

- Absorbs Reverberated Sound
- Improves Speech Intelligibility
- Increases Audio Clarity

TACKABLE

- Holds Tighter Than Cork
- Naturally Self-Healing
- Will Not Crumble

PRINTED GRAPHICS

- Only Limit is Your Imagination
- Good for Indoor or Outdoor
- High-Quality, Detailed Prints

WALL PROTECTION

- Shock Absorbent & Crush-Proof
- Tougher Than Paint & Fiberglass
- Very Long Lasting

FABRICMATE SOLUTIONS

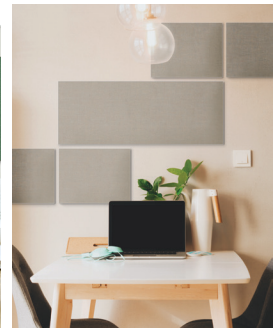

1 'SITE-FABRICATED' WALL FINISHING SYSTEM

Conforms to nearly any architectural feature | Significantly reduces maintenance costs

2 'READY-TO-HANG' PRE-MADE PANELS

Easy to put up | Arrives ready-to-hang | Built-to-last | Useful anywhere

3 'MODULAR' PANEL KITS

Each kit includes everything you need to create a large, affordable bulletin board panel

BUILT-IN BENEFITS

FIRE-RATED

ANTIMICROBIAL

VOC-FREE

NON-TOXIC

THERE'S MORE THAN **ONE WAY TO FINISH A WALL**

RETHINK YOUR WALLS

What are your walls doing for you? Can they improve acoustics or provide thermal insulation? Are they tackable - able to accept push-pins for hanging photos or documents without leaving holes behind? Are they easily scuffed, dented, and damaged?

WALL FINISHING REDEFINED

The Fabricmate Wall Finishing System is the perfect alternative to paint. It is high-impact, offering superior wall protection. It absorbs reverberated sound to significantly improve acoustics and speech intelligibility. By design it mitigates visible damage, lasting far longer than painted walls while greatly reducing maintenance costs. Thermal benefits can help save on heating and AC. Being tackable means that every surface is an opportunity for communication.

WHY PAINT?

Paint offers little protection and functionality to the walls it covers. It scuffs easily and does nothing for acoustics. Worst of all, maintaining painted walls in high-traffic areas requires constant effort. Do away with the mess and hassle of paint and cover your walls with something more sustainable.

CUSTOM IS STANDARD

Panels and Full-Wall installations are extremely customizable and can adjust to nearly any architectural feature. We have flexible Frame for creating curved designs, installing on curved walls, or creating circular baffles. We offer free Value Engineering from the beginning of your project so it gets completed properly and on time.

BENEFITS & SUPPORT

- Fast & Easy to Install
- LEED Credits
- Free On-Site or Online Training
- Warranties
- System Uses No Adhesives
- Non-Hygroscopic
- Certification Available
- CAD Details
- Prewritten Specs Available
- Submittal/Substitutions Support
- No Need to Field Measure
- Easily Change Fabric

PANEL & SYSTEM TYPES

- Pre-Made & Modular Panels
- Full-Wall Systems
- Baffles
- Dividers
- Floors & Ceilings
- HVAC

SYSTEM BENEFITS

- Acoustics
- Tackability
- Wall Protection
- Thermal Insulation

ADDITIONAL SERVICES

- Fabric Printing
- Seam Services
- Laminating Services
