

THE ULTIMATE WALL FINISHING SOLUTION

Benefits right out of the box! Our Pre-Made Panels show up at your door ready-to-hang. They can bring acoustical, tackable, and/or wall protection benefits to nearly any space. Multiple ready-to-ship sizes are available. Combine multiple panels to increase benefits. Custom Graphic Printing available.

A great option for Chair Rails and other Wall Protection

Tie a room together and add functionality

Tackability and Aesthetics

ACOUSTIC | TACKABLE | HIGH IMPACT | SUSTAINABLE | THERMAL | FIRE-RATED | NON-ABSORBENT

Our Pre-Made (1 Series) can be customized to create a perfect Panel for your environment that is not only aesthetically pleasing, but also adds the benefit of functionality to the room it's in. Panels are available in 1/2" and 1" thicknesses in a number of varying sizes/ dimensions. Our ready-to-hang Panels are a great option for anyone looking for benefits right out of the box. Acoustic Panels are a safer and longer-lasting alternative to yellow glass wrapped panels that can be permanently damaged with one bump. Wall Protection is inherently part of our

Panels as they mitigate visible damage by not having the surface glued to the substrate. These Panels are a much more versatile option to laminate or wood wainscoting and chair rails. We also offer custom Graphic Printing for Pre-Made Panels so you can fully customize your space. Print photos, branding, patterns, and just about anything else you can think of to either disguise or make a Panel stand out. Get rid of drab crumbling cork boards and replace them with custom panels that brings your space together.

BENEFITS

ACOUSTICS

TACKABILITY

MAGNETIC

WALL PROTECTION

ANTI-MICROBIAL

FIRE-RATED

THERMAL

ECO-FRIENDLY

POPULAR USES

AESTHETICS

Choose from our selection of Fabrics or use a photo, drawing, or logo to create a custom easy-to-hang Panel.

WALL PROTECTION

Our Panels are ideal for Chair Rails and Wall Protection. The surface bounces back mitigating visible damage.

TACKABILITY

Panels can be tacked over and over without degrading and crumbling like traditional cork boards.

ACOUSTICS

Our Pre-Made Panels can help reduce reverberated sound and increase speech intelligibility.

AVAILABLE IN 2 THICKNESSES

1/2" HALF-INCH (CLASSIC-LINE)

SQUARE

BEVELED

1/2" Classic-Line® is our most popular thickness across the board. A great option for Acoustics, Tackability, and Wall Protection with minimal protrusion as well as an incredibly easy installation process.

1" ONE-INCH (FULL-LINE)

SQUARE

BEVELED

Our 1" Full-Line® Panels are ideal for Acoustics and can be utilized in multiples to further enhance the functionality they add to a room. They are also Tackable and supply excellent Wall Protection.

APPLICABLE TO ALL PRE-MADE (1 SERIES) PANELS *FRAME & BACKING ONLY*

Smaller Panels only need strips of double sided picture hanging tape to affix them to the wall. Larger panels can be easily hung with (included) Z-Clips that screw to the wall and grip the lip of the Panel Frame.

ReCore® is fabricated from recycled content ranging between 65% and 96% post-consumer content (based off specifications), and is 100% recyclable at end-of-life.

Our Frame is composed of 100% durable uPVC (No Phthalates or BPA, does not decompose, is weather-resistant) and is 100% recyclable at end-of-life.
